MANUFACTURING BY LOCATION, TRANSFERRING OF MATERIAL & TRUCKING

We continue to manufacture certain products in specific locations only (*Lyndhurst, South Amboy, or Lakewood*). For distributors where we arrange all trucking- we will provide you with three different trucking rates from each of our locations to your yard so you can price all products accordingly. For distributors that arrange their own trucking or pick up-you will be instructed what products will be available at each location. *We will not transfer products from one location to another* (this includes split loads to yards/jobsites). This will streamline our operations and maximize the supply of our pavers and walls so we can better service you.

ORDERING COYOTE “CUSTOM ORDER ONLY” PRODUCTS

NOTE: Coyote products designated as “Custom Order Only” are not in our inventory. To ensure that items are available on a timely basis, a single order will be placed weekly. Custom Orders must be received by 11:00 AM on Wednesday. The product ordered will be available the following Friday at Cambridge unless otherwise specified at the time of order placement.

[B] Omega Smooth wallstones used as retaining wall should be built as a setback or near vertical unless you have consulted & designed an engineered plan for a full vertical position based on the criteria of your wall installation.

- All stones can be used in the wall.
- The #5 block can be used as end of wall, vertical jumper, cut to fit the end of wall, or as a standard wallstone.

MAILBOX CARE & MAINTENANCE: Many mailbox installations are in areas that expose the mailbox to road salt from snow/ice removal. This can be very damaging to the painted metal surface. Also, locations near the ocean expose the surface to highly corrosive salt air, as well as acid rain, and smog will also damage the painted surface. A periodic cleaning of the painted surface of your mailbox with a mild detergent, water and soft brush will help keep your mailbox looking like new. In addition, a clear spray (no buff) car wax can help protect the painted finish. This process is recommended 2-3 times a year if possible. This quick maintenance will help your mailbox last for many years to come. **Rust, corrosion, wear, and tear are not covered under warranty.**

Made in AMERICA

.....

We are changing America's Landscape with Pavingstones & Wallstones! We want towns all over the United States to upgrade their sidewalks, downtown areas and municipalities with products that will outperform concrete and asphalt. We are allowing people to extend their living space beyond their four walls so that they can enjoy time with family and friends throughout the year. This is about something larger than a pretty driveway or patio. It is about an investment that makes people feel good about coming home or taking a walk in their local community. Our mission is to encourage positive change in the environments we utilize each and every day. We are proud to be a part of this change, one paver and one wallstone at a time.
